

Daniele Quero

Summary

A professional developer and physicist with a strong passion for game development and skill-growing. I have experience as software engineer and had been both a productive team member and team leader with good communication and teaching skills. Problem solving is what I love the most about my job and I am excited to apply this skill to game developing.

Hard Skills

C#	Geometry	Java (up to 17)
Git	SpringBoot	REST
C	Math&Physics	Unity
SQL	MongoDB	

Soft Skills

Teaching	Fast Learner	Team Play
Problem Solving	Googling and AI	Team Leading
Communication	Problem Decomposition	Clean Code
